

DESIGN TECH HOMES

C U S T O M  B U I L D E R

Dear Friends of Design Tech Homes,

As you may already know, our Houston division, located at MainStreet America in Spring, Texas, was devastated by flooding during Hurricane Harvey last September. Since then we have been under continuous reconstruction of our corporate office, sales and design center. We are excited to announce that most of this construction is complete. Also, three of our model homes, [The Centennial](#), [The Midtown](#) and [The Cape Pointe](#), suffered little damage and remain **OPEN DAILY**. Our New Home Consultants are eager to assist you on a tour of these models and help answer any questions you may have about our custom home services.

Three model homes which are currently closed, [The Wakefield](#), [The Valencia](#), and [The Timbergrove](#) are under renovation. They will reopen with fresh, new, beautifully re-designed and re-decorated interiors by **July 1, 2018**.

For more than 20 years we have been building custom homes throughout Texas. We have remained strong through all kinds of weather disasters and even a national recession. This is the spirit of Design Tech Homes. We love what we do and look forward to many more years of building some of the finest homes throughout the great state of Texas.

As always, our sales and information centers are open 7 days a week in both Houston and San Antonio. Please come visit us and share your dreams of building a new custom home.

Sincerely,

Barbara and Mike Feigin
